Section II: Funding Opportunity Announcement Objectives and Goals

A. Program Background Information

The NCPTT Media Grants program provides funding for innovative dissemination of new technologies or existing technologies to preserve cultural resources. Grant recipients will develop publications, web or mobile applications, and video products that offer preservationists a better understanding of tools and resources available to preserve cultural heritage. The resulting grant products help increase the longevity of cultural resources.

The NCPTT Media Grants Program is a subset of the Preservation Technology and Training Grants.

NCPTT helps preservationists find better tools, better materials, and better approaches to conserving buildings, landscapes, sites, and collections. It conducts research and testing in its own laboratories, provides cutting edge training around the U.S., and supports research and training projects at universities and nonprofits. NCPTT pushes the envelope of current preservation practice by exploring advances in science and technology in other fields and applying them to issues in cultural resources management.

B. Program Objectives

- Provide media tools for preservationists and the general public to better conduct preservation efforts on historic structures, archeological sites, historic landscapes, and museum collections.
- Disseminate new technologies through publications, online resources, mobile applications, and video production.
- Provide tools that can gather information about cultural resources through mobile devices.
C. Term of the Agreement

Agreement terms for funded projects are estimated to range between one and five years, depending on the negotiated project scope. Agreements are not effective until fully executed with signature from the NPS Awarding Officer. In most cases an agreement will expire after five years from the effective date, unless terminated earlier in accordance with 2 CFR, Part 200, Sections 200.338 and 200.339.

Prior to the expiration of this agreement, modifications may be proposed by either party and will become effective upon written approval of both parties.

Each activity or project under this agreement will be treated individually, with more detail through project statements, project plans and budgets developed cooperatively between the NPS and the recipient organization.

The final award agreement will identify the amount of funding provided by NPS, any cost share provided by the Recipient, a detailed Statement of Work (SOW) for the project, a project plan and detailed project budget. The project budget shall include detailed information on all cost categories, and must clearly identify all project costs. Unit costs shall be provided for all budget items including the cost of work to be provided by contractors/sub-recipients. Additionally, applicants shall include a narrative description of the items included in the project budget, including the value of in-kind contributions of goods and services provided to complete the project when cost share is identified to be included. Cost categories can include but are not limited those costs items included on the SF424A and SF424C.

An agreement issued by the NPS and signed by the NPS Awarding Officer obligates NPS funds. Notification of a successful proposal does not constitute authority to incur costs. Costs incurred prior to receipt of a signed grant agreement will not be reimbursed.

B. Funding Restrictions

Once all clearances and reviews have been conducted, a cooperative agreement will be sent for signature. Work cannot begin before the recipient receives a fully executed copy of the cooperative agreement which contains the signature of the Awarding Official.

**Notice of Selection:**
NPS will notify the applicant selected for award by June 1, 2016. This notice of selection is not an authorization to begin performance. (Pre-award expenses will not be reimbursed).
